

Movement Education - Success for All Through Divergent Discovery

Ross Chakrian

Comments

Great information! Thank you for sharing!

Great resources!! Interesting approach to learning!!

Great Session!!

how would this look at the high school level for individual and team sports?

LOVE LOVE LOVE this session! Thanks Ross for the valuable resources as well.

LOVE LOVE LOVE this session! Thanks Ross for the valuable resources as well.

Loved his video he prepared for his students. I would love to develop something that good.

Ross is a great presenter and we are blessed to have him on board in our profession! I have referenced and referred to his ideas over the past school year! He has great ideas that get you thinking "outside the box" in how to change or tweak things to make them better for students! Thank you Ross!

Thank you Ross. Sharing your ideas for working with children on movement and using the divergent method was excellent. Your demonstrations and use of assessments were reinforcing and added a good understanding of how to implement this method for successful movers.

There is tons of great information that you shared. Really appreciate it!

very meaningful
